- Design Safety Factor: 2.5 minimum
- Unique Clamp Design to eliminate Tubular Swinging while Lifted
- Comes with Complete Hydraulic Power Unit, Main Operator Console & Wireless Remote Control
- Can be added to any Standalone Snubbing Unit, Service Rig or Drilling Rig
- Can be pulled by One Ton Truck

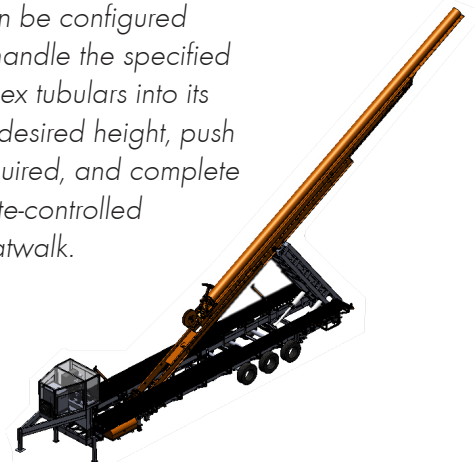

CUSTOM OPTIONS

- Can be custom designed as per client requirements
- Options:
 - Hydraulic Controlled Pipe Rack Jacks
 - Double & Triple Installation Section for Skid Mounted Type
 - Stair and Slide Installation at two sides of the pipe through Work lights, Alarm lights

WHY PURCHASE MTI HYDRAULIC CATWALK?

Mitey Titan Catwalks provide a way to reduce/eliminate human handling of tubulars during field operations and increase overall safety in the field. Mitey Titan Catwalks can be configured with integrated pipe racks to handle the specified weight of the tubulars, can index tubulars into its trough, raise the trough to the desired height, push or skate the tubulars up as required, and complete the cycle in reverse from remote-controlled functions of the Mitey Titan Catwalk.
