OILFIELD FREEZE UNITS

OVER 15 YEARS OF MANUFACTURING & DESIGN EXPERIENCE

Mitey Titan Industries manufactures and sells Cryogenic Freezing Units that are used to create a temporary Freeze Plug in well; with low (example 500 PSI) to high wellbore pressure (up to 15,000 PSI). Mitey Titan Freeze units are used in situations where it's not feasible to contain Wellbore Pressure to replace damaged equipment or to allow access to the equipment without Killing the Well. Mitey Titan Freeze Units provide an effective and safe method to create Freeze Plugs when required for the application.

HIGHLIGHTED FEATURES

- The Freeze Unit, however, solves most of these problems with a safer, and reliable system that is cost-effective and quick.
 - Using the Mitey Titan Freeze unit, an operator can inject mud (such as a Bentonite mix) at high pressure to create a Freeze plug and use a freezing media such as Dry Ice (CO₂) or liquid Nitrogen (N₂) inside a Jacket around the outer surface where an Ice Plug is being created to service the well.
 - There are several ways to create a Jacket on the outer surface by using coil lines with liquid N₂, a wrap-around jacket with CO₂, or a canister style system with liquid N₂, utilized according to application requirements
- FUL - Freeze Unit for Land Use
 - Mitey Titan Freeze Unit packages can be customized as per application requirements given by the end-user.
 - FUO - Freeze Unit for Offshore Use
 - Mitey Titan Offshore Freeze Units are manufactured to optimize weights and footprint for offshore platforms. For Offshore application, specify minimum available Crane Lifting Capacity and Height reach.

CUSTOM OPTIONS

- Can be custom designed as per client requirements

WHY PURCHASE MITEY TITAN FREEZE EQUIPMENT?

Mitey Titan Industries is a well-known manufacturer of Oilfield Freeze Units with pressure capacities up to 15,000 PSI. Mitey Titan Freeze units have proven to be reliable in creating a temporary Freeze Plugs inside Tubing, Drill Pipe, or Casing of up to 36" in diameter. Mitey Titan Industries can also provide training and start-up crew with Freeze Equipment. Mitey Titan Oilfield equipment is renowned for its quality and efficiency. The standards of building in all equipment are rigorously high, which can contribute to great consistency and generally well-built products.
